

Connecting the field to the ER

Improving the quality of care
with enhanced communication

Highly Reliable Network Coverage

FirstNet gets a head start by launching on the nation's best network* – featuring more than 99% population coverage.

First Priority™

When emergencies strike, networks can be congested. FirstNet gives EMTs, ambulance drivers and trauma center staff access to the priority and preemption capabilities they need – when every second counts.

Trusted Security and Resiliency

Designed with heightened security in mind to help resist physical and cyberthreats. Ruggedized to help withstand power outages and backed by a dynamic, highly trained disaster recovery organization.

Dedicated Support

Your dedicated technical support is available 24/7/365 – and staffed with highly trained professionals who have experience in emergency communications.

Affordable Plans with Advanced Features

So much more than a competitive rate plan – this nationwide broadband network comes with unique capabilities.

No Throttling

And there's no throttling for FirstNet subscribers anywhere in the U.S.

FirstNet.com

Available

This powerful broadband LTE network provides a reliable and highly secure connection to the ER. This means healthcare professionals and first responders on FirstNet can get the voice, text and data they need – when lives are at stake.

Operable

Experience faster response times and enhanced situational awareness with improved information-sharing across agencies, disciplines and jurisdictions.

Innovative

Foster an ecosystem of innovation using advanced technologies, applications and devices that help first responders on FirstNet save lives and protect communities.
