

## **Green Earth Technologies Disinfectant Spray Instructions**

1. Dilute 2 oz. of disinfectant concentrate into 1 gallon of water
2. Fill spray bottle or reservoir of sprayer with mixture
3. Clean surface you want to disinfect of all gross visible contaminants.
4. Spray surface or equipment with any type of sprayer.  
(The finer the mist the quicker the application and drying process)
5. Let Surface dry completely.
6. You are ready to go back in service.
