

NJ Transit First Responder Rail Safety

NJ TRANSIT RAIL OPERATIONS

Course Outline

The objective of this training is to provide the knowledge and skills to stay safe when responding to a train / railroad related incident.

The lecture is approximately three hours long and accredited by the NJ Department of Health and the N.J. Division of Fire Safety. It is tailored for each individual agency and for each disciplines' (Police, Fire, EMS, Dispatch, CERT, and Medical Examiners) unique concerns. The Emergency Response Guidelines presentation covers all things the responder needs to know to safely handle a railroad incident.

NJ TRANSIT- System Map.
